SUBJECT:

REVISED GEAR SET

MODELS:

TR7

At gear box #CG36219 a revised gear set incorporating stronger gear teeth was introduced. The commencing VIN for this improvement is ACW4417. In the event of gear box overhaul the gears in question must be replaced as a complete set and not as individual items prior to ACW4417. Vehicles subsequent to this number will be to the latest condition and, therefore, their individual gears can be serviced separately.

The part numbers are as follows:

<u>Description</u>	<u>Old Part</u>	<u>New Part</u>
Laygear Cluster Assembly	UKC-3196	UKC-8749
Reverse Idler Gear Assembly	114580	UKC-8750
Reverse Gear and Sleeve Assembly	156911	UKC-8748

Note: Above parts are also available as a complete kit under part number RTC-2241.
